OTHER VOICE SERVICES

Spectrotel offers a suite of Business Calling Solutions that are affordable, reliable choices designed to meet the needs of SMB and enterprise customers nationwide. Our variety of features, calling plans, and bundles enable you to optimize your telecommunications network for your operation.

AFFORDABLE

Great savings to match your budget requirements all on one bill.

IDEAL

For small and multi-location businesses or as back-up to Services.

CUSTOMIZABLE

Comprehensive standard and optional features to configure for your needs.

RELIABLE

99.9% reliability based on underlying local carrier networks.

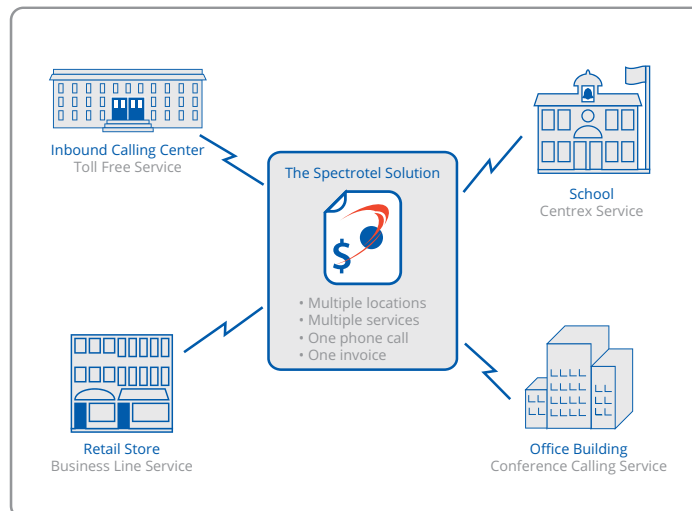

Fastest-Growing Nationwide Aggregator of Voice, Internet, and Managed Services.

Business Lines – Often called “Plain Old Telephone Service” or POTS lines, Spectrotel’s Business Line Service supplies a single, voice-grade communication channel for telephones, key systems, modems, point of purchase machines, faxes, and other devices that require access to the Public Switched Telephone Network (PSTN).

Centrex Lines – Ideal for customers who require PBX-like functions for groups of users or locations without the expenditure for a costly PBX system, Spectrotel’s Centrex Service provides PBX switching at the central office rather than at the customer premises, which enables multiple users and locations to be seamlessly connected.

Web Conferencing – An enterprise-grade meeting collaboration software solution that drives productivity with essential easy-to-use features that enable more effective communication from desktop and mobile devices.

Remote Call Forwarding to establish a local presence in another area or make a “virtual” move. Spectrotel’s Remote Call Forward (RCF) Service automatically routes inbound calls made to a local number to another location.

Conference Calling with a variety of audio and web conferencing plans and features, Spectrotel’s Conference Calling allows you to conduct meetings with multiple people in different locations while avoiding expensive travel.

Toll Free Service with 8XX telephone numbers provide a free service to callers with the receiving party paying all of the charges. Spectrotel’s Toll Free Service can terminate on any telephone, and is compatible with all call management features.
