

Transparent LAN Service (TLS)

For customers with a need to transparently link remote offices and backend data centers with other corporate locations, Spectrotel's Transparent LAN Service (TLS) is the ideal solution. TLS is a high-speed data service that provides Ethernet transport over a shared fiber network to provide interconnection of Local Area Networks (LANs) in multiple locations over one contiguous and safe network. It is ideal for the company that needs to transmit large amounts of data efficiently and securely.

AFFORDABILITY

Cost effective service for Metropolitan Area Networks (MAN)

SCALABILITY

EVC upgradable in 1 Mbps increments to 1 Gbps for greater flexibility

AVAILABILITY

Unmatched fiber footprint in service markets to inter-connect dispersed locations

RELIABILITY

24 x 7 network monitoring, QOS options, and Service Level Objectives

TRANSPARENT LAN SERVICE (TLS)

Spectrotel's Transparent LAN Service (TLS) is an intra-LATA service offered in selected metropolitan areas and within the New York – New Jersey Corridor. Verizon is our network services provider. Our service offers the high reliability and stability expected of a service built on one of the largest underlying LEC networks, but with the personalized service and flexible billing Spectrotel is known for, including options for independent billing of endpoints on a common TLS network.

Available Markets:

- North East Region
- Mid-Atlantic Region
- Select markets in Texas, Florida, California

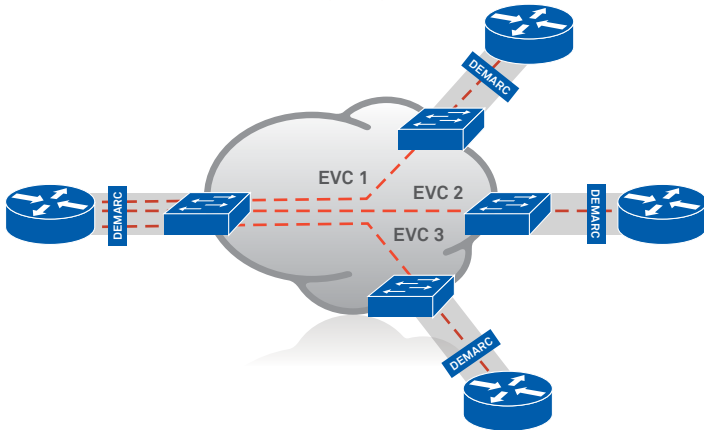

Access Line & Port Speeds:

- 10 Mbps
- 100 Mbps
- 1 Gbps
- 10 Gbps

Features:

- Standards-based protocols
- Ethernet interface
- VLAN translation
- Tunnel Access Service
- Other configuration specific features

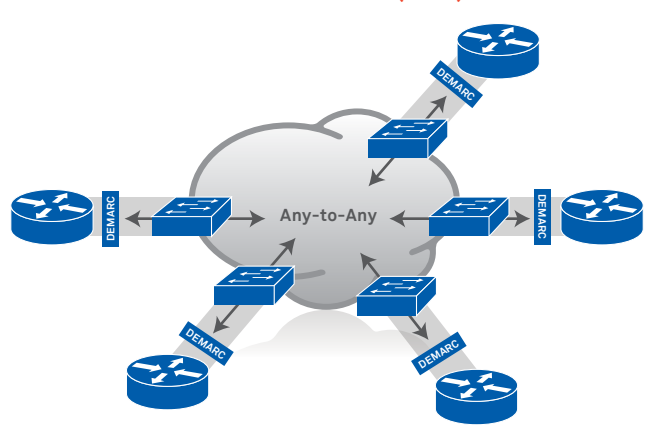

ETHERNET RELAY SERVICE (ERS)

ERS Configurations & Features:

- Class of Service available
- One or multiple EVCs per port
- Performance monitoring
- Point-to-point
- Point-to-multipoint

ETHERNET MULTIPOINT SERVICE (EMS)

EMS Configurations & Features:

- Any-to-any connectivity
- Connectionless
- One EVC per port
- Fully meshed

Simply Better Service

Spectrotel was founded in 1996 with a mission to bring quality, affordable, and personalized telecommunications services to customers of all sizes nationwide. From traditional voice and data services to leading edge IP-based solutions, Spectrotel's *Simply Better Service* brings you the best available underlying infrastructure with unparalleled solutions, service, and savings. We are headquartered in Neptune, NJ.
