

We take pride in keeping your buildings online so you can focus on keeping them operating smoothly.

SIMPLICITY: Consolidated, easy to interpret billing across all locations, including multistate and multi-dwelling operations

FLEXIBILITY: Invoices we can organize to meet your needs by tenant or cost center, for example, using corporate summaries and parent/child structure

STABILITY: No network migration required; Built on largest LEC networks

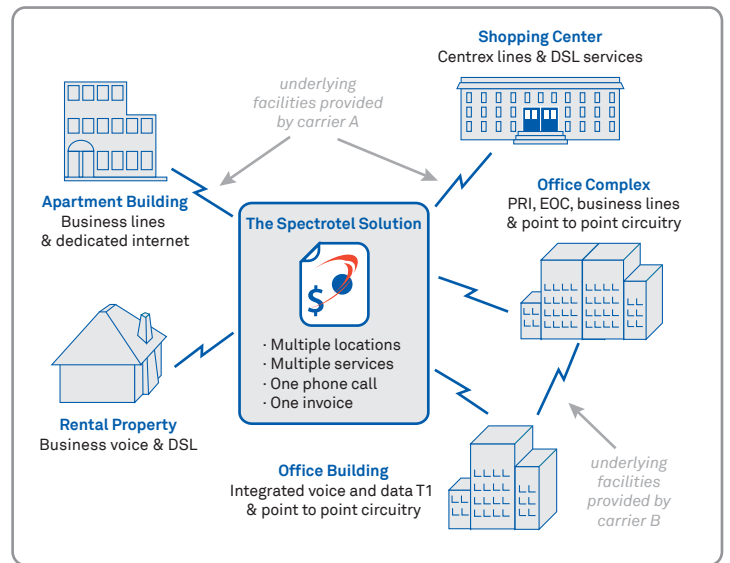

EFFICIENCY: Minimal to no on-site coordination required

VARIETY: Spectrum Suite of Services to meet your service needs

- Traditional voice and data services
- Elevator and alarm monitoring designed specifically for real estate operations

RESPONSIVENESS: Personalized, focused, “live” customer service representatives without computer generated queries or voice prompts

DEPENDABILITY: Tens of thousands of customers, including many multi-state real estate operations, depend on Spectrotel for quality solutions, service and savings

We deliver the highest quality.

Whether you are managing one building or an office complex, the last thing you want to worry about is whether your communications infrastructure is stable enough to keep your buildings and operations online. You want services you can always rely upon, and with rising energy costs and weather anomalies you need immediate economic advantages to help your bottom line. Spectrotel provides quality telecommunications services powered by the largest and most reliable local exchange networks in the nation at a significant savings over the LEC while bringing you personalized customer care, and with our Spotlight program larger customers will receive dedicated account support from our Spotlight Managers.

We understand your specific needs.
