

Full-Stack ASP.NET Senior Application Developer

Growing, dynamic company based in Monmouth County New Jersey is seeking a creative developer with ability to design and maintain enterprise-level websites and applications to deliver products and excellent service to our business and partners.

Candidates will need to have solid, hands-on experience in delivery of web/desktop applications working in accordance with defined project framework and procedures. The role will involve all aspects of the software life-cycle from specification, design, development, deployment and support. This is a challenging role involving producing work of high standard with a huge emphasis on attention to detail. This is a great opportunity for the individual looking for an environment which is varied and challenging, and also offers career progression for those with the right potential.

Required Qualifications & Education

- Bachelor's degree in Computer Science or Information Systems
- A minimum of 7 years of Hands-On experience with Development involving Microsoft.NET and SQL Server.
- Ability to support and maintain systems that use a variety of .NET technologies
- Understanding of User Experience (UX) / User Interface (UI) design concepts.
- Self-motivated with ability to get things done.

Strong experience with C#, ASP.NET, HTML5, CSS, AJAX, JavaScript, Web Services, IIS

- Experience developing large enterprise applications utilizing ASP.NET is required.
- Excellent understanding of OOP and the Microsoft .NET Framework.
- Excellent troubleshooting and communication skills.
- Ability to analyze, design, and implement both components and full solutions.
- Experience building and consuming XML/JSON Web Services using RESTful APIs.
- Solid understanding of MS SQL/Server database and SQL language.
- Solid grasp of design patterns and refactoring.
- Apply best practices and coding standards.
- Ability to gather and analyze business requirements to recommend optimal solutions
- Able to work well in a team setting or independently.
- Experience with Agile development and Team Foundation Server is preferred
- Experience with 3rd-party controls is a plus; Telerik controls is preferred.
- Telecom industry experience is a plus.
