**SECTION 4 - SERVICE CHARGES AND SURCHARGES, (CONT'D.)**

**4.4 Carrier Presubscription**

**4.4.1 General**

Carrier Presubscription is a procedure whereby a Customer designates to the Company the carrier that the Customer wishes to be the carrier of choice for intraLATA and interLATA toll calls. Such calls are automatically directed to the designated carrier, without the need to use carrier access codes or additional dialing to direct the call to the designated carrier. Presubscription does not prevent a Customer who has presubscribed to an IntraLATA or InterLATA toll carrier from using carrier access codes or additional dialing to direct calls to an alternative long distance carrier on a per call basis.

**4.4.2 Presubscription Options** - Customers may select the same carrier or separate carriers for intraLATA and interLATA long distance. The following options for long distance Presubscription are available:

**Option A:** Customer selects the Company as the presubscribed carrier for IntraLATA and InterLATA toll calls subject to presubscription.

**Option B:** Customer may select the Company as the presubscribed carrier for IntraLATA calls subject to presubscription and some other carrier as the presubscribed carrier for interLATA toll calls subject to presubscription.

**Option C:** Customer may select a carrier other than the Company for intraLATA toll calls subject to presubscription and the Company for interLATA toll calls subject to presubscription.

**4.4 Carrier Presubscription (Cont'd.)**

**4.4.2 Presubscription Options, (Cont'd.)**

**Option E:** Customer may select two different carriers, neither being the Company for intraLATA and interLATA toll calls. One carrier to be the Customers' primary intraLATA interexchange carrier. The other carrier to be the Customer's primary interLATA interexchange carrier.

**Option F:** Customer may select no presubscribed carrier for intraLATA and interLATA toll calls subject to presubscription which will require the Customer to dial a carrier access code to route all intraLATA and interLATA toll calls to the carrier of choice for each call.

**4.4.3 Rules and Regulations**

Customers of record will retain their primary interexchange carrier(s) until they request that their dialing arrangements be changed.

Customers of record or new Customers may select either Options A, B, C, D, E or F for intraLATA and interLATA Presubscription.

Customers may change their selected Option and/or presubscribed toll carrier at any time subject to charges specified in 4.4.5 below:

**SECTION 4 - SERVICE CHARGES AND SURCHARGES, (CONT'D.)**

**4.4 Carrier Presubscription (Cont'd.)**

**4.4.4 Presubscription Procedures**

A new Customer will be asked to select intraLATA and interLATA toll carriers at the time the Customer places an order to establish local exchange service with the Company. The Company will process the Customer's order for service. All new Customers' initial requests for intraLATA and interLATA toll service presubscription shall be provided free of charge.

If a new Customer is unable to make selection at the time the new Customer places an order to establish local exchange service, the Company will read a random listing of all available intraLATA and interLATA carriers to aid the Customer in selection. If selection is still not possible, the Company will inform the Customer that he/she will be given 90 calendar days in which to inform the Company of his/her choice for primary toll carrier(s) free of charge. Until the Customer informs the Company of his/her choice of primary toll carrier, the Customer will not have access to long distance services on a presubscribed basis, but rather will be required to dial a carrier access code to route all toll calls to the carrier(s) of choice. Customers who inform the Company of a choice for toll carrier presubscription within the 90 day period will not be assessed a service charge for the initial Customer request.

Customers of record may initiate a intraLATA or interLATA presubscription change at any time, subject to the charges specified in 4.4.5 below. If a Customer of record inquires of the Company of the carriers available for toll presubscription, the Company will read a random listing of all available intraLATA and interLATA carriers to aid the Customer in selection.

**SECTION 4 - SERVICE CHARGES AND SURCHARGES, (CONT'D.)**

**4.5 Public Telephone Surcharge**

In order to recover Company expenses to comply with the FCC's pay telephone compensation plan effective on October 7, 1997 (FCC 97-371), an undiscountable per call charge is applicable to all intrastate calls that originate from any pay telephone used to access Company provided services. This surcharge, which is in addition to standard tariffed usage charges and any applicable service charges and surcharges associated with service, applies for the use of the instrument used to access Company provided service and is unrelated to the service accessed from the pay telephone.

Pay telephones include coin-operated and coinless phones owned by local telephone companies, independent companies and interexchange carriers. The Public Pay Telephone Surcharge applies to the initial completed call and any reoriginated call (e.g., using the “#” symbol). The Public Pay Telephone Surcharge does not apply to calls placed from pay telephones at which the Customer pays for service by inserting coins during the progress of the call.

Whenever possible, the Public Pay Telephone Surcharge will appear on the same invoice containing the usage charges for the surcharged call. In cases where proper pay telephone coding digits are not transmitted to the Company prior to completion of a call, the Public Pay Telephone Surcharge may be billed on a subsequent invoice after the Company has obtained information from a carrier that the originating station is an eligible pay telephone.

**5.2 Charges Based on Duration of Use**

Where charges for a service are specified based on the duration of use, such as the duration of a telephone call, the following rules apply:

- 5.2.1** Calls are measured in durational increments identified for each service. All calls that are fractions of a measurement increment are rounded-up to the next whole unit.
  - 5.2.2** Timing on completed calls begins when the call is answered by the called party. Answering is determined by hardware answer supervision in all cases where this signaling is provided by the terminating local carrier and any intermediate carrier(s). **B. Additional Listings**

Additional listings may be the listings of individual names of those entitle to use the customer's service or, for business, Commissions, Divisions, Trade names, etc.

In connection with business service, regular additional listings are available only in the names of Authorized Users of the Customer's service.

Ordinarily, all additional listings are of the same address and telephone number as the primary listings, except as provided for joint user and alternate number listings. However, when it appears necessary as an aid to the use of the directory and provided satisfactory service can be furnished, a listing will be permitted under the address of a branch exchange, Centrex or extension of an exchange service line installed on the premises of the Customer, but at an address different from that of the attendant position of main service.

Special types of additional listings, such as Alternate, Alpha and Informational, Duplicate and Reference Listings, Foreign Listings, etc. take the same business classification as the service with which such listings are furnished.

**6.5 Directory Listing Service, (Cont'd.)**

**6.5.2 Listings, (Cont'd.)**

**C. Non-published Service**

The telephone numbers of non-published service are not listed in either the Company's alphabetical directory or Directory Assistance records available to the general public.

Non-published information may be released to emergency service providers, to customers who subscribe to Company offerings which require the information to provide service and/ or bill their clients, or, to telephone customers who are billed for calls placed to or from non-published numbers and to entities which collect for the billed services. Non-published names and/or telephone numbers may also be delivered to customers on a call-by-call basis.

Incoming calls to non-published service will be completed by the Company only when the calling party places the call by number. The Company will adhere to this practice notwithstanding any claim the calling party may present, except claims of emergencies involving life and death. In such cases, the Company will call the non-published number and request permission to make an immediate connection to the calling party.

When the Company agrees to keep a number unlisted, it does so without any obligation. Except for cases of gross negligence or willful misconduct, the Company is not liable for any damages that might arise from publishing a non-published number in the directory or disclosing it to some. If, in error, the telephone number is published in the directory, the Company's only obligation is to credit or refund any monthly charges the Customer paid for non-published service.

The Subscriber indemnifies (i.e., promises to reimburse the Company for any amount the Company must pay as a result of) and save the Company harmless against any and all claims for damages caused or claimed to have been caused, directly or indirectly, by the publication of a non-published service or the disclosing of said number to any person.
